- ✓ Create natural workflow paths for all office and field employees

## Easy Workflow Organization

BuilderGM has a simple, intuitive work structure that flows from one activity to the next, in sequence, and pushes your job information through the pipeline with the click of a mouse.

## Template Driven

Templates are the foundation of BuilderGM and provide the building blocks for estimating, scheduling, options, selections, specification and cost tracking. Set your template up once, refine as you go, and use for a lifetime.

## Powerful Financial Management Tools

BuilderGM has the most summary, detailed and aggregated financial reporting in its class. From accounting reports to a sophisticated management dashboard, you have at your fingertips a selection of financial tools to keep your jobs and company moving in the right direction.

## Full QuickBooks Integration

You are a Builder, not a bookkeeper. Let BuilderGM simplify your accounting needs. There is no need to replace your current accounting solution or do double entry. BuilderGM easily synchronizes all your accounting information with QuickBooks Desktop or Online. With our BuilderGM to QuickBooks integration you can manage all your accounting information and keep everyone on the same page in real-time.

## Easy Implementation

Getting started is quick and easy. You get immediate access to the platform and with BuilderGM's powerful template-based system and our implementation support specialists, you will be up and running on BuilderGM in hours, not weeks or months. Quickly improve your productivity and efficiency and start reaping the benefits.

## Estimates and Proposals

Estimate jobs quickly and accurately. BuilderGM provides template driven estimating for fast, easy, job scoping. It automatically generates a client questionnaire, a job specification and a schedule as you scope your job so you don't miss anything. Create polished, professional presentations for your clients. Sell more jobs with less effort. With BuilderGM you will spend less time and have better success keeping your pipeline full.

## Anywhere, Anytime

Work anywhere, anytime with BuilderGM's fully integrated Web and Mobile Apps. Track time worked and apply labor costs to your jobs with online and mobile time entry. Become more efficient and put time back in your day by using BuilderGM.
