

Manufacturer's Tax Credit Certificate

Non-Business Energy Property Credit Internal Revenue Code, § 25C

The Non-Business Energy Property Tax Credits have been retroactively extended from 12/31/2017 through 12/31/2020. Further Consolidated Appropriations Act, 2020 amended Internal Revenue Code section 25C, which provides tax credits for the installation of Qualified Energy Property for residential heating and cooling equipment meeting certain energy efficiency requirements.

Qualifying Air Source Heat Pumps should meet or exceed 15 SEER, 12.5 EER and 8.5 HSPF. Samsung HVAC America, LLC (Samsung) certifies that the products or system families listed below include models that meet the efficiency requirements according to AHRI's rating system, and may be eligible for the section 25C tax credit if placed in service by December 31, 2020. Confirm eligibility of your matched system by visiting <http://www.ahridirectory.org> or by contacting your installing dealer.

There are other important requirements and limitations to qualify for the section 25C tax credit, such as the qualified energy property must be installed in the homeowner's primary residence. We recommend that homeowners consult a tax professional to ensure they meet all requirements. The Internal Revenue Service is responsible for implementing and administering the section 25C tax credit.

Under penalty of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
